

LOCKHEED MARTIN SPACE SYSTEMS COMPANY
ASTRONAUTICS OPERATIONS
LITTLETON, COLORADO

Lockheed Martin Space Systems Company Astronautics Operations of Littleton, Colorado designs, develops, tests, and manufactures a variety of advanced technology systems for space and defense. Chief products include planetary spacecraft and other space systems, space launch systems, and ground systems. The facility is certified to ISO 14001.

ENVIRONMENTAL PERFORMANCE

Past Accomplishments

Lockheed Martin Space Systems Company, Astronautics Operations has demonstrated its commitment to environmental performance in the areas of air emissions and hazardous waste. Since 1997, the facility has:

- **Reduced vehicle emissions** from commuting by 10% through instituting a work schedule that gives employees every other Friday off.
- **Reduced hazardous waste (F019 wastewater treatment sludge)** by 17% through changing operations to preclude mixing F019 precursors with nonhazardous sludge.

Future Commitments

Lockheed Martin Space Systems Company, Astronautics Operations also committed to continued environmental improvement through further reductions in air emissions and hazardous waste. By 2003, the facility will:

- **Reduce hazardous waste (F019 wastewater treatment sludge)** by 80% by segregating F019 precursors from all waste streams entering the wastewater treatment plant.
- **Reduce emissions of ozone-depleting chemicals** by 9% by replacing one registered chlorofluorocarbon-using chiller each year. This program will continue past 2003, until all 32 chillers are replaced.
- **Decrease solid waste (scrap wood)** by 5 tons per year by recycling scrap pallets and shipping crates.
- **Reduce adhesive, resin, and paint waste** by 10% through better integration and coordination of product requirements and purchasing methods.

COMMUNITY OUTREACH

The Lockheed Martin Space Systems Company, Astronautics Operations plant welcomes community member comments through its Web site and its communications department. The plant informs

AT A GLANCE

Industry Sector:	Aerospace and Defense
Business:	Manufactures, designs, and tests launch vehicles and satellites
Facility Employees:	More than 1,000
Accomplishments:	Reduced vehicle emissions Reduced hazardous waste
2003 Commitments:	Reduce hazardous wastes Reduce emissions of ODCs Reduce solid waste
Address:	12257 State Highway 121 Littleton, Colorado 80127
Web Site:	www.ast.lmco.com

community members of matters that affect them through public meetings, press releases, and an annual summary brochure. In cases of emergencies, the plant informs the public through agency notification. The plant will make the Performance Track Annual Report available through its website and the annual summary brochure.
